

Garden Centers Case Study

mobile mini
STORAGE SOLUTIONS

10-foot wide container

2ft Walkway

Tri-Cam Locking System

The Department of Homeland Security has identified Mobile Mini as a critical infrastructure business. We play a vital role in the important work that needs to be done to protect our communities and keep our people safe.

Retailers across the nation are having to adapt their business models so they are adhering to CDC, state and local government health and safety mandates. These guidelines are evolving almost daily, and many organizations were not expecting or prepared for how the crisis has played out thus far.

One of the National Retail Federation's (NRF's) Top Retailers in 2019 has nearly 5,000 locations across the U.S., but they are not exempt from the challenges COVID-19 is creating. In fact, this retailer recently had shipments of summer inventory like patio furniture sets, grills, and lawn mowers get delivered at some of their stores - which they had ordered about 18 months ago but couldn't cancel despite the pandemic.

With limited space in the store and no option but to accept the inventory, the seller needed additional space. Mobile Mini is the trusted provider of 40' storage units at these stores to provide additional, secured space for their inventory on-site. Our patented Tri-Cam Locking System gives them peace of mind that their layaway inventory is safe from theft.

Small and large retailers alike are facing unique challenges with overstocking some inventory to meet customer demand or, like Walmart, getting new inventory in that just can't be cancelled or put on hold until the pandemic has subsided.

Mobile Mini is here to help with storage and office solutions that fit your needs. In fact, we can even help set up crowd control outside of stores that are "essential," but are limiting how many customers are in the store at once to enforce social distancing. From tents, fences, lights, generators, restrooms, handwashing and sanitization stations, we'll be sure you have products that create a safe and secure environment for customers, employees and vendors alike.

Connect with our expert team today at **800-281-6464**. We also understand you may not have time for a call, so you can also use our **Reserve Now** feature on desktop or mobile to book your rental online with the click of a button!
