

Home Builder Case Study

mobile mini
STORAGE SOLUTIONS

Tri-Cam Locking System

The Department of Homeland Security has identified Mobile Mini as a critical infrastructure business. We play a vital role in the important work that needs to be done to protect our communities and keep our people safe.

Home builders across the U.S. are having to adapt to the changes and challenges that have resulted from COVID-19. In fact, stricter regulations are being enforced by OSHA and state and local governments to better ensure crews, homeowners and communities are safe.

One of Builders Top Home Builders of 2019 recently rented over 500 hand washing stations and restrooms in order to set job sites up with more areas for crews to practice good hygiene. Having portable facilities means they can be spread out, so employees are also practicing social distancing. With one call to Mobile Mini, they protected the company, their employees, their vendors and their customers in creating a safe work environment.

With Mobile Mini's one-stop-shop approach, Lennar Homes is also renting our portable, on-site storage and office units. Our storage units are made of all-steel and secured with our patented Tri-Cam Locking System. This way, PPE and other valuable equipment and materials are safe from weather and theft. Temporary office space also promotes social distancing on a job site.

Storage Containers and Ground-Level Offices

8' X 10'

8' X 15'

10' X 18'

8' X 20'
