# MM TANK + PUMP SOLUTIONS

## Sand Media Filters

Removal of Solids

Down to 20 Microns

Our Sand Media Filters are designed for the most challenging dirty water conditions with a high performance solutions for water filtration down to 20 microns. These durable carbon steel filters utilize a 24" vertical side shell depth for removal of organic and inorganic suspended solids for filtering large volumes of water with very little pressure drop and a long-term value. All of our industrial media filters utilize a simple backwash system for ease of operation and consistent water quality. The automatically controlled filter systems operate for extended periods of time prior to a short backwash cycle.

#### **Applications**

- Removal of organic and/or inorganic suspended solids down to 20 microns
- Storm water runoff, industrial process water, incoming plant water, waste water clean-up, industrial water for plant reuse
- Pre-filtration in applications such as granular activated carbon reverse osmosis, cartridge or bag filtration and deionized water
- 80 psi standard operating pressure
- ♦ Flow ranges from 10 gpm and up

#### **Advantages**

- State of the art fabrication provides added strength under pressure and long system life
- ASME code shaped head construction for durability and safety
- Stainless steel wedgewire underdrain
- ⇒ Ensures structural integrity in the harshest conditions
- ⇒ Hydraulically balanced to in crease effectiveness of backwash while reducing flush frequency and waste water

- Standard carbon steel products3/16" thick material
- Backwash automatically initiated by elapsed time pressure differential
- ETS easy-entry lid closure with weld tabs for operator safety
- 3M Scotchkote 134 fusion bonded epoxy coating on interior surfaces

SPECIFICATIONS-INDUSTRIAL-SAND MEDIA FILTERS													
Model	Number of Tanks in System	Standard Flow Range Minimum Maximum			Filtration Surface			Media Requirements (cubic feet)		Maximum	Inlet/Out	Backwash	
		gpm	m³/hr			Area (total sq ft)			Gravel 1/2"-3/4"	, Media	Pressure	let Pipe Size	Line Pipe Size
IL-4824-4A	4	504	115	756	172	50.40	189	43	28	84	80 psi	8"	4"

#### **Standard Product Includes:**

- ♦ Completely assembled for easy installation
- ♦ Skid mounted tanks
- ♦ ETS easy-entry lid closure with side manway
- ♦ Valves
- Inlet/outlet and backwash manifolds
- ♦ Controller, solenoids, electrical wire, tubing
- ♦ Removable underdrain

### **Available Options:**

- ♦ ASME code
- ♦ High pressure
- ♦ Solar package
- ♦ PLC Controller
- ♦ Custom filter station layout piping
- ♦ Air scour
